

INSTALLATION INSTRUCTIONS

Stackable Dryer - 04004

STACKABLE TO SAVE SPACE

When using more than one rack, the racks may be stacked by placing the corner legs on top of one another. Push in each leg to make a firm connection.

NOTE:

Let wet sweater finish dripping before stacking on top of another rack.

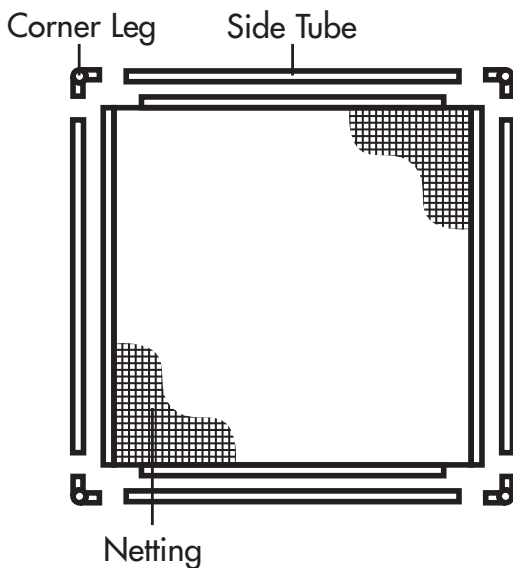

CONTENTS:

One complete rack including:

- One 27" x 27" white netting
- 4 PVC side tubes
- 4 PVC corner legs

SET-UP INSTRUCTIONS:

1. Unfold netting.
2. Slide three (3) tubes into netting borders. Position four (4) corner leg joints and push tubes into legs.
3. Insert remaining tube into corner leg joints. Fold netting over tube and attach hook and loop fasteners. It is recommended that the hook and loop fasteners be positioned on the underside of the netting when assembled.
